

Rebeltec Communications LLC

Entry Level 1 Install Technician

Rebeltec Communications LLC, a Communications Company, a fast growing provider of Wireless Broadband and Fiber Optic Internet Service is looking to hire a full time install technician to cover our serving area. We are currently looking for individuals who are self-motivated and possess exceptional customer service and mechanical skills for our installer position.

Ideal candidates will possess:

- Good Communication and Customer Service skills
- Be Responsible, Honest, and Trustworthy
- Have Patience, Confidence, and understand Confidentiality
- The ability to work a scheduled day from 9 am to 5:30 pm – Monday to Friday
- Must be self-motivated
- Must be a team player
- Hands on mechanical aptitude
- Clean driving record
- Ability to travel for long periods of time
- Be available for Emergency call outs
- Have basic computer and internet program knowledge
- The ability and willingness to learn
- The ability to “problem solve”
- Must be organized

Responsibilities would include but not be limited to the following:

- Install, test and repair Wireless Broadband and Fiber Optic Equipment Setups in commercial and residential settings while ensuring all work is done according to quality standards set by Rebeltec Communications LLC.
- Install test and repair Wireless Broadband equipment on communications towers and grain elevators.
- Install, repair, troubleshoot and maintain 12VDC, 24VDC and 48VDC power and battery systems.
- Operate hand tools, power tools, and light equipment.
- Work safely around and off of large ladders.
- Visually inspect installation site to identify obstructions that could distort or block signals to Access Points for our Wireless Broadband Internet.
- Program and troubleshoot wireless and networking equipment for each customer/project
- Instruct customers on proper use of equipment
- Complete necessary paperwork for each work order/customer and receive proper signature for accurate billing
- Timely reporting to work, reporting an estimated time of completion for every job, and efficient use of time each day to comply with work schedule and customer appointments.
- Training and tools for the installer position is provided –
(Surprise inspections of install vehicle will be performed by employer)
- An install vehicle and gas is provided for the installer position.
- Keep track of all wireless equipment and supplies – will be responsible for filling out purchase orders when needed
- Job Description is subject to change at any time by Rebeltec Communications LLC

All employees will automatically be covered by Workman’s Comp insurance provided by Pinnacle Assurance. Any/All “driving employees” will have a Driver’s Background Check done to ensure a clean driving record. Rebeltec Communications LLC is a drug free workplace. To protect our employees and customers and to provide a safe work environment, Rebeltec requires all new hires to successfully complete a background check and drug testing.
